

**FRENCH BOARDING AND DAY SCHOOL
FOR BOYS, BY HY. BENTALOU**

features in this academy are:
1. That the only male school in this country where the French language is taught practically, and the intercourse between the teacher and pupils is held in the French tongue.
2. That mathematics—the parametric elements of modern education—are taught, not only as a science, but on the plan established by the masters of the school, (proprietary Legendre, Bonnycastle, Lacroix, &c.) and that the instruction is conveyed through the medium of the French language.
3. That geometry and solutions of problems made in this language—an exercise which, by its nature, might be supposed to enable pupils to speak French, and secure fluency in the language.
4. That the English is by no means neglected. The course of English studies consists of English grammar, reading, (the classic authors,) weekly recitations of English poetry, (previously copied by the pupils,) and the composition of English papers.
5. That the boarding department is under the care of Mr. Joseph Board and his lady, in whose family the French is exclusively spoken—an advantage for the time met with in this metropolis.
6. That the French is used in the study of geography, history, arithmetic, and the modern languages.
7. That those desirous of acquiring a practical knowledge of the Spanish, peculiar advantages are offered by this institution, as Mr. Michael is conversant in that language.
8. That the boarders will attend the church designated by their parents or guardians, always accompanied by a member of Mr. M.'s family.

NETIC FLUID.—These wonderful Raps, the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to them, both in New York and Boston. They are with astonishing rapidity rheumatism, gonorrhea, colic, flux, cramp, sick headache, indigestion, dysuria, stiff joints, general debility, deficiency of our energy, and all nervous disorders. They produce all the beneficial results of the ordinary electric battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing this fluid was discovered by Professor William Harmonie, Esq., of London, in October last, and they have recently introduced into this country by Dr. A. S. Harris, who warns the American public, from the pages of the *Journal of American Institutions*, to
